

HEN 2.0 DATA ALERT

Operational Metrics Reporting **Due May 31**

In an effort to evaluate advancement of HEN 2.0 participants' *Operational Items*, each hospital must provide a status update within the Comprehensive Data System (CDS) for the time period of 2/1/16-4/30/16.

The *Operational Items* include;

1. Patient & Family Engagement
2. Leadership & Governance
3. Healthcare Disparities
4. Cultural Competency

The self-assessment includes the exact questions included with the *Needs Assessment* your team completed during the project launch. To access and enter your current status:

1. Log into CDS and choose "Operational Items" under the project drop down box then click "Next"

Project:

2. Navigate to the *PFE, Leadership and Governance, Disparities and Cultural Competency* choice (shown with red star below) and select "Enter Data"
